Where can the Biogen specific teaching material be found?

Where can the Biogen specific teaching material be found?

- All the material can be found on our website under “Filespage”. This page is password protected and can only be viewed by Biogen employees.
- Login details

	<u>D-SCHULE Website Filespage</u>
User:	files
Password:	Files2021
- The 47 lessons are listed one below the other and each lesson contains the documents mentioned in this presentation.
- These documents are constantly being revised and optimised. It is therefore important that the documents are not saved locally, but are always downloaded, so that you always learn with the most up-to-date version.

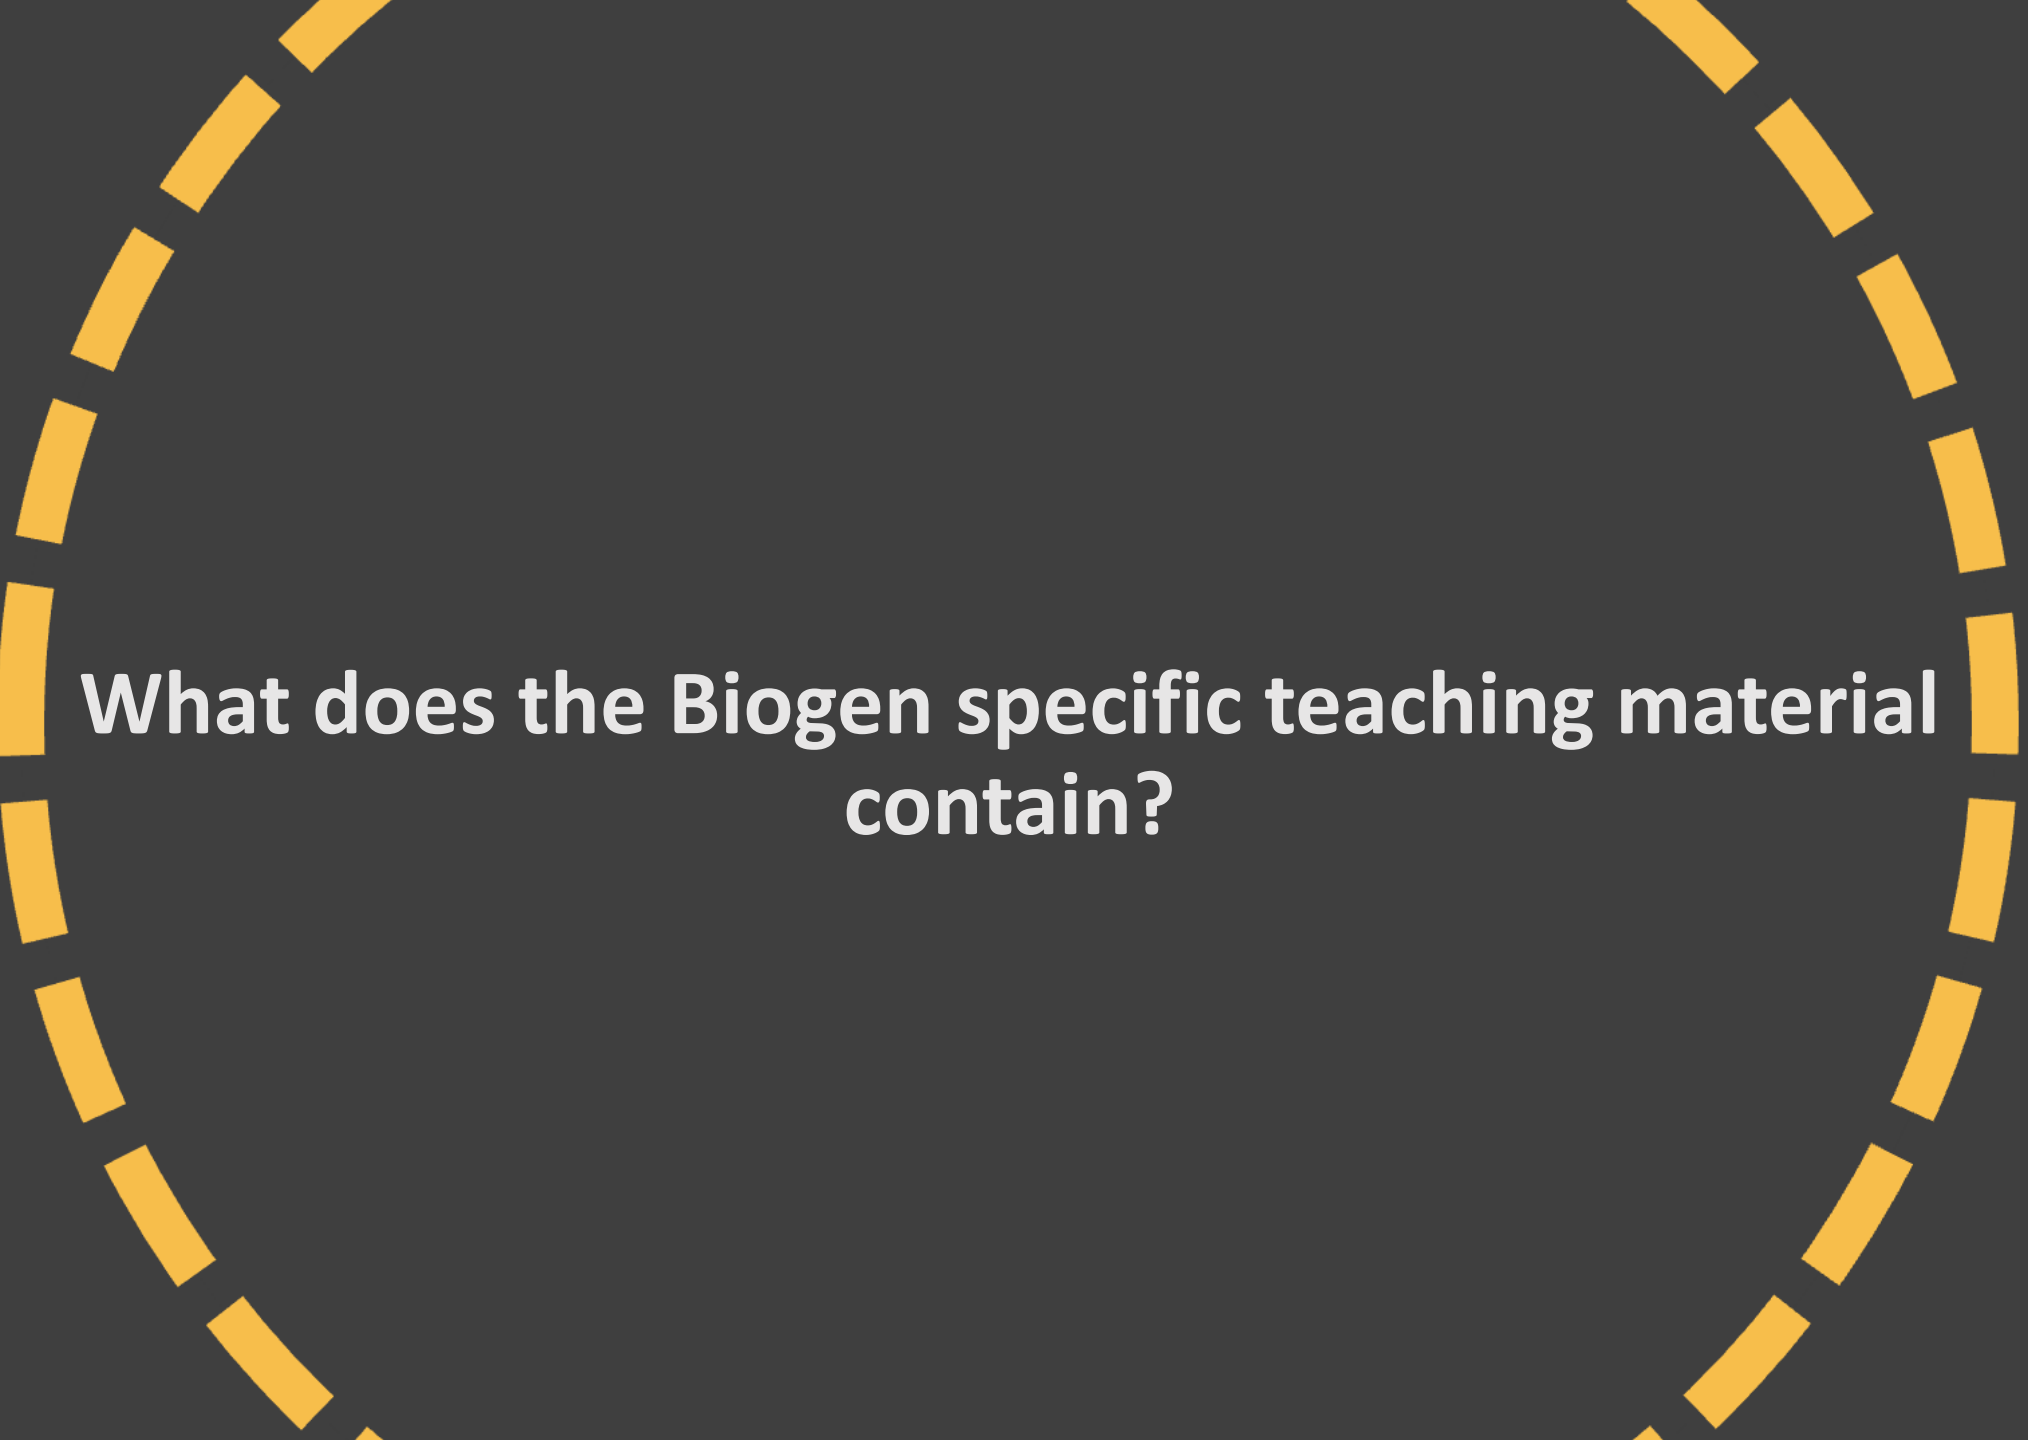

What is the Biogen specific teaching material?

What is the Biogen specific teaching material?

- The Biogen specific teaching material is a customised teaching material based on Biogen specific vocabulary used in B1 courses.
- There are 47 topics, which have been divided into 47 lessons. Each topic is covered in 2 sessions - so the repetitive part is not missing.
- Goal: Biogen employees should improve their English on the one hand and become more familiar with internal business processes and expressions in English on the other hand.

**What does the Biogen specific teaching material
contain?**

What does the Biogen specific teaching material contain?

- Text English
- Text German
- Shapego – Word Cloud
- Questions & Answers in English
- Questions & Answers in German
- Gap Text
- Gap Text Key
- Vocabulary Excel list with filter function
- Quizlet: Vocabulary App
- Summary of all questions and answers in English
- Summary of all questions and answers in German
- Quizlet Link-List

Biogen related specific texts

in English & German

Biogen related specific texts

- The complete teaching material is based on the BIOGEN related texts given to us by BIOGEN.
- These texts have been corrected and revised by our English/German teachers.
- All texts have been proofread by BIOGEN and declared correct.
- All texts are saved as PDFs.

Shapego – Word Clouds

Shapego – Word Cloud

- The most important words were filtered out per topic and inserted into a Shapego - Word Cloud.

The Shapego can be used very flexibly in the class:

- Talking about a word / topic
- Repeating a topic
- Asking questions and answers
- As homework: writing about a topic
- etc.

Questions & Answers

in English and German

Questions & Answers

- Questions and answers were formulated for each topic.
- These can be used in class as exercises, learning checks or they can be given as homework.
- All questions and answers have been proofread by BIOGEN and declared correct.
- These questions and answers are saved as PDF's in English and German.

Gap Texts

Gap Texts

- To review vocabulary and check comprehension, we created gap texts from the familiar texts.
- These gap texts are perfect as homework and to check whether the students have understood the content.
- Each gap texts is available as PDF and word file. The word file also allows to write directly into it.
- There is also a solution sheet for each gap text, so that learners can easily check themselves independently.

Vocabulary lists

Vocabulary lists

- For each lesson there is an Excel list with complete vocabulary based on the texts.
- The lists contain filter functions. This means that the student can look up words according to the following criteria:
 - Noun
 - Verbs
 - Adjectives
 - Miscellaneous
- The words are translated in context. This is a big advantage over online translators, where you get “x-variants” suggested.

Quizlet – The learning App

Quizlet – The learning App

- Quizlet is a flash card app for learning vocabulary. You can choose whether you want to learn from the target language English into German or vice versa.
- The app is based on the Excel list per lesson. This means that there are the following categories: All vocabulary, Nouns, Verbs, Adjectives and Miscellaneous
- The app runs on the computer, on the mobile phone, etc.
- Big advantage: You can save time and learn from anywhere - from your break at work, during a train journey or from the comfort of the sofa.

Quizlet – What can be done with Quizlet?

Quizlet – What can be done with Quizlet?

Quizlet offers many different ways to learn vocabulary:

- **Flashcards:**
The way you know it from school in the 90s: On one card side is the target language English and on the other side is in our case German.
- **Learning:**
In the learning mode, the app always suggests 4 possible answers. Works according to the multiple-choice system.
- **Answers:**
In the Answers mode, you have to translate the word yourself and write it down.

- **Writing:**

In the writing mode, you have to write what you hear. It's like dictation.

- **Test mode:**

In test mode you have 4 tasks with 5 questions each.

- First task: You have to translate the word and write it down yourself. (Spelling training)
- Second task: You have to match words.
- Third task: Has 5 multiple-choice questions
- Fourth task: Students have to decide whether the question is right or wrong

And last but not least, the app has two games:

- **Game - Matching:**

The first game "Matching" is like a puzzle. You see many words and have to find pairs. As soon as the playing field is activated, the timer starts running. So you have to find the word pairs as quickly as possible.

- **Game - Gravity:**

And in the game "Gravity", words fall down from the top of the screen and you have to write the translation in the box before the words disappear from the screen.

Learning while playing and having fun is the motto of Quizlet.

Quizlet – How to register in Quizlet?

Quizlet – How to register in Quizlet?

- To use the Quizlet without restrictions you have to register here: www.quizlet.com (This is free of charge)
- Once you are logged in, you have to search for **Dschule_Switzerland** in the search box and send us a request. We can release the password-protected Biogen course and you can then study at any time.
- You can log in with any device (Computer, Laptop, Mobile, ... and your data will be synchronised automatically.

How to get to the desired lesson in Quizlet?

How to get to the desired lesson in Quizlet?

- On our website under "Filespage" you will find the "Quizlet Link List" directly after the presentation.
[D-SCHULE Website Filespage](#)
- The list contains all the links to the individual learning sets sorted by lessons.
- If you have registered correctly in Quizlet, you will be able to access the desired lesson directly via this link list.

What is Plickers and how is it used?

What is Plickers and how is it used?

- With the Plickers app, teachers can test learning content in a fun way.
- In doing so, the teacher connects with their students through a mobile phone link. The teacher uploads control questions.
- This app is not intended for students directly.
- We will use this type of learning control from time to time - not too much - after all, the students should look forward to it!
- All questions and answers have been proofread by BIOGEN and declared correct.

Thank you for your attention!

D-SCHULE – Your language school

We wish you a lot of
success with the
Biogen specific
teaching material.
